He buys a lot of fruits from the fruit shelf: he wants to make a fruit salad and will use apples (1), bananas (2), strawberries (3) and cherries (4). He also takes grapes (5) for the starter. He would like to offer small skewers with cheese (6) and grapes.

He is going to make a vegetable soup (7). For this he needs a kilo of carrots (8), some large potatoes (9), half a kilo of onions (10) and mushrooms (11). He also takes lettuce (12) and tomatoes (13), for a salad.

There is a large selection of meat (14) and fish (15). Ben chooses a chicken (16). He also buys a pack of rice (17) to accompany the meat. He also needs bread, (18) a bottle of milk (19) and eggs (20). Now he is ready and can go home to prepare dinner.
